→ Detail Number

CODE SUMMARY

GENERAL NOTES

- All work shall conform to the latest edition of the BOCA Code, the Americans with Disabilities Act of 1996, and all other applicable national and local codes, ordinances and standards.
- Contractor shall verify existing conditions and all dimensions in the field. It is the intent of the drawings to show the relative size and placement of various building components in relation to each other. If conditions in the field are not as indicated on the drawings, notify the Architect and do not proceed with the work until required revision or clarification has been made.
- Contractor shall coordinate as required with the manufacturers of selected equipment, fixtures and products. Contractor shall comply with manufacturers instructions and recommendations and all industry standards.
- Do not scale drawings. Verify all dimensions before beginning construction.
- Neatly cut and patch existing partitions and walls to remain for installation of ducts, conduit, piping, etc., as shown on MEP Plans.
- Existing partitions, doors, walls, windows and floors to remain must be protected during construction.
- Partition Locations are dimensioned to finished face. Where shown at column centerlines or aligned with Existing Face of Columns, Partitions or Window Jambes, no Dimension is given.
- Where not Key Noted as "Patch to match Existing Flooring", the Existing Floor at all locations where Partition and Base are demolished shall be patched to a Level and Smooth Surface suitable for receiving New Flooring Material as scheduled.
