AREA= 32,250.50 FT.

- NOTES:
- Contractor shall mark limits of landscape buffer along east line with construction fencing prior to start of grading.
 - Perimeter silt control shall be siltation fence and mulch barrier.
 - Ditch checks and slope control shall be straw bales.
 - All swales shall have erosion control blanket installed. Use N.A.G. 575 or equal.
 - Existing overhead power line and power pole conflicts will be addressed with construction plans.
