GENERAL NOTES

- Present Zoning: C-2
- Proposed Use: Commercial (Construction Industry Equipment Rental)
- Area of Tract: 2.19 Acres
- Site is not located within the 100 year flood plain per FIRM Map #29183C0237 E.
- Project is Served By:
 A. Water-City of O'Fallon
 B. Gas-Laclede Gas Company
 C. Telephone-CenturyTel Telephone Company
 D. Sewer-O'Fallon Sewer District
 E. Electric-AmerenUE Electric Company
 F. Fire-O'Fallon Fire Protection District
- All utilities shall be located underground.
- Parking and building shall be in compliance with A.D.A. Accessibility Guidelines.
- Storm water detention has been provided for on site.
- Building height, site lighting and signage shall be in accordance with City of O'Fallon requirements.
- Setback and yard requirements:
 Front - 25 feet
 Side - 25 feet
 Rear - 10 feet
- Grading and drainage shall be per City of O'Fallon requirements.
- Site shall comply with Article 26 of the O'Fallon Zoning Ordinance.
- Two existing dead trees are being removed.
- Trash area shall be provided for inside building. Trash will be put out for pick-up by contracted service on trash day.
- All proposed fencing requires a separate permit through the Planning Division.
- Covenants, Codes and Restrictions shall be submitted to the City for review and approval prior to approval of subdivision plan.
- The utilities for Lot A will be addressed with a site plan for that lot.
- Parking Calculations:
 Parking Required:
 1 space per 400 sq. ft.
 8,502.3 / 400 = 21.25 spaces
 Parking Provided:
 22 spaces including 1 handicap space.
- A photometric lighting plan shall be submitted for review and approval prior to construction plan approval.
- Existing detention basin will be cleaned out as necessary to achieve the required storage volume needed to maintain the 100 year high water elevation.
- All siltation control devices shall follow St. Charles County Soil and Water Conservation District Erosion and Sediment Control Guidelines.
- No equipment shall be stored between the front face of building and the east property line.
- Lighting values will be reviewed on site prior to the final occupancy inspection. Corrections will need to be made if not in compliance with City standards.
- All sign locations and sizes must be approved separately through the Planning Division.
- Prior to construction plan approval, engineer will coordinate with the engineering department in regards to compliance with Phase II Illicit Storm Water Discharge Guidelines per Ordinance 5082.
- All dimensions taken from back of curb unless otherwise noted.
- No slope shall be greater than 3:1 during construction and at final grade.
- Buildings and parking shall be in conformance with City of O'Fallon's requirements for C-2 zoning.
- No illumination shall reflect onto adjacent properties.
- All outside trash containers, HVAC units, electric, telephone and gas meters, satellite dishes and rooftop mechanical apparatus shall be thoroughly screened with materials and/or landscaping to conceal the visibility of such items from the view of right-of-way and/or adjacent properties.
- Lighting values will be reviewed on site prior to the final occupancy inspection. Corrections will need to be made if not in compliance with City standards.
- In compliance with Phase II Illicit Storm discharge guidelines per Ordinance 5082, this development will provide long term post construction BMP's such as, low impact design, source controls and treatment controls that protect water quality and controls run off to the maximum extent practical.
- Site shall comply with Article XIII of the Zoning Code, Performance Standards.
- Improvements are to be made to the adjacent right of way of all developments to meet City of O'Fallon standards and specifications. Any adjustments in the grading of right of way whether it be existing conditions or caused by the construction of the development shall be approved by the City of O'Fallon upon inspection of the site.
- The City of O'Fallon shall be contacted for utilities under its maintenance responsibility. This may include water, sanitary, storm, and traffic locates.
- Any gravel on-site shall be removed and replaced with vegetation or hard surface.
- Existing asphalt will be cracked sealed where needed, and the entire lot will be seal coated.
- Fuel tanks are to be double walled.
